Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 8/16/2006 has been entered.
2. It is noted that claim 19 does not appear in the claim set, however based on Applicant's remarks, it appears that claim 19 is canceled as Applicant states that claim 19 is not pending.

Claim Objections

3. Claim 16 is objected to because of the following informalities: in claim 16, line 11, "central regions" should be --central region--. Appropriate correction is required.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
5. Claims 20-24 and 31 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 22 recites “a base”, however claim 31 previously recited a base; it is unclear if this is the same base or not. Also, claim 23 claims “the base”; it is unclear if this refers to the base from claim 22 or claim 31.

Claim 31 recites the limitation "the medial region" in lines 9-10. There is insufficient antecedent basis for this limitation in the claim.

Additionally, in claim 31, it is noted that “the lower region” in line 11 should be --the top region--.

Claim Rejections - 35 USC § 102

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

7. Claim 16 is rejected under 35 U.S.C. 102(e) as being anticipated by Bakhsh et al. (US 6,527,296).

Bakhsh et al. discloses an airbag comprising a first inflatable region (see Figure 2: region beside frontmost window 20) having a plurality of first restrictions (see restriction extending from 72) extending from a top uninflated portion toward the central region and a second set of restrictions (70, in central portion of frontmost window area 20); the central region extending

Art Unit: 3616

from a front to a rear of the first inflatable region, being determined by the length of the restrictions, wherein end portions of the restrictions are laterally off-set from each other.

8. Claims 16, 18, 20-24 and 26-31 are rejected under 35 U.S.C. 102(b) as being anticipated by Nusschor (US 2002/0005635).

Nusschor discloses an airbag comprising a first inflatable region (16) including a first set of restrictions (see A in Figure below) and a second set of restrictions (see B in Figure below), wherein the restrictions are off-set from each other. The first set of restrictions also includes the leftmost restriction at the top of the airbag. The joints all include a base, a body and a distal end. The central portion 24 forms a set of joints forming a U-shape (on the bottom of the central portion).

Allowable Subject Matter

9. Claim 25 is allowed.

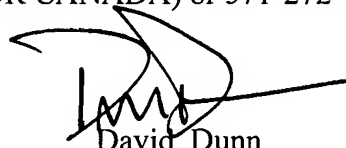

Response to Arguments

10. Applicant's arguments filed 8/16/06 have been fully considered but they are not persuasive. Applicant does not provide any specific arguments.

11. Any inquiry concerning this communication or earlier communications from the examiner should be directed to David Dunn whose telephone number is 571-272-6670. The examiner can normally be reached on Mon-Fri, 8:30-5:00.
